

# European Topic Centre Human Health and the Environment

The **ETC Human Health and the Environment (ETC HE)** is a consortium of 10 European organisations working in partnership with the European Environment Agency (EEA) under a framework partnership agreement for the period 2022-2026. The ETC HE supports the EEA in work on environmental and climate pressures on health, benefits to human well-being by healthy environments, policy implementation (air quality, air pollutant emissions, environmental noise, industrial releases), chemicals, and links between environment/climate pressures and social inequalities, as well as socio-economic dimensions.
