

MONITORING PROGRESS IN EUROPE'S CIRCULAR ECONOMY

Building upon the Bellagio Principles

6-8 May, **BELLAGIO (CO) - Italy**

WHERE ARE WE?

The EPA network, the European Environment Agency, Eurostat and DG Environment will set the scene and define the objectives of the Conference

PRIVATE SECTOR WORKSHOP

Circularity is a business opportunity rather than a challenge and will only materialise if our economies reap the opportunities

CIRCULARITY IN MOTION

What do we want to measure?
Where are the gaps?
Do we understand the inner circles of the circular economy?
How can we use non-state data?
Where do we want to invest to know more?

TRACKING PROGRESS

Innovation in measuring circularity and the setting of targets. Best practice and challenges at international, national, local and company level will be shared.

HIGH-LEVEL SEGMENT

Setting a policy ambition and a pathway to understand circularity
